

# KM1400MP/ KM1400MU

Multi-standard CCIR/EIA 14"  
black-and-white video monitors

The KM1400MP and KM1400MU are 14" general-purpose 800-line resolution black-and-white video monitors designed for video surveillance systems.

These multi-standard monitors work for both CCIR or EIA applications. They come standard with the appropriate power cord for the European and UK market. Simply changing the power cord & selection switch setting will enable the unit to work in any market.

An optional rack mount is available which allows the monitor to be mounted in a standard 19" rack mount.
